County School Board Commends Primary And Intermediate Schools

The Appomattox County School Board met in regular session on Friday afternoon, Oct. 13, 1972, at 3 p.m., in the School Board Office with Dr. A. A. Fratrick, Chairman, presiding. All members were in attendance.

Mrs. Jean Hesson, Principal of Appomattox Primary School, and Mr. L. A. Beamon, Principal of Appomattox Intermediate School, appeared before the board to discuss educational programs in these two schools.

Mrs. Hesson reported that in their Instructional Program the situation is such that they think of it as a learning center with three principle groups -- staff, organizational program and materials. It is felt that individualized instruction is by far the most effective method. In the classroom of today, one teacher does not keep one particular group for the entire day of school, teachers now share the children thus becoming better acquainted with the students and more able to meet their needs. Students are re-grouped when ever necessary.

At the beginning of each school year, students pick up and use books where they left off the year before. For example, Mrs. Hesson stated that fourth grade books are not necessarily used just in the fourth grade, therefore students can move forward at their own pace. The pass-fail term is not stressed when no grade-levels are used. There are 81 reading groups, excluding the Special Education Groups, in the Appomattox Primary School. Many materials are used in the school but instructional books are also used.

The Title VI Program is very effective in the self-contained classrooms. This program has been most successful and plans are to have Title I Programs begin in 1974. Mrs. Hesson noted that concerned parents are needed.

Mr. Beamon, reporting from the Appomattox Intermediate School, stated that students 9 through 14 years are the age group in this school and that individual instruction is stressed with no visible signs of resistance in the program. He believes that with team-teacher instruction, with both small

Abbitt Named To Nixon Advisory Group

RICHMOND (AP) - Two more prominent Virginia Democrats have added their names to the list on the bipartisan Advisory Committee for the Re-election of the President.

Committee chairman former Gov. Mills E. Godwin Jr. Saturday announced the addition to the committee of Rep. Watkins M. Abbitt, D-Va., and Richard S. Reynolds, Jr., the chairman of the board of Reynolds Metals.

Abbitt is a former state Democratic chairman, and Reynolds has long been a major financial contributor to Democratic campaigns, both on the national and state levels.

Neither one ever has supported a GOP presidential ticket before.

"Their support demonstrates anew the broad appeal of President Nixon in Virginia, and the sharp rejection of Sen. (George) McGovern and Sargent Shriver and the programs espoused by them," Godwin said.

The former Democratic governor also suggested the stances of Reynolds and Abbitt are symbolic of what has happened in the state this year to make the Nixon-Agnew ticket a favorite to sweep Virginia with 60 per cent or more of the votes cast on November 7.
